

Amanda Cervantes, _NEMA Planning and Fulfillment – Inventory Architect_ at ABB

Bachelor's Degree in Business Administration from University of Arkansas – Fort Smith and a Master's Degree in Business Administration with an International emphasis.

Working with People has always been my passion, but I also really enjoyed and excelled at Math and Science during my school studies. I knew I wanted to do something career wise that would involve both a strong collaboration with other people and require some type of technical aspect to hold my interest.

Favorite classes in high school: Algebra or Choir (That is a tough call)

Favorite classes in college: Brazil Practicum – It was a class where you worked with a company in Brazil and assisted to solve a problem. I paired with Sam's Club in Brazil and I had the opportunity to help remarket the Sam's Brand for the Brazil Culture.

Dream job: VP of PG Operations

The advice I would have to give is please don't ever be afraid to chase your dreams and follow your passions. Do not let anyone hold you back or make you feel you cannot do something that you really want to do. If you have ever felt nervous about what other people will say or think about you, ignore what people might have to say and do what makes YOU happy. You only have one life to live and you need to live it to the fullest.
